

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## KEY TO THE REGISTER.

The Stores of Vessels are designated by the Figures 1 and 2:—

1. Signifying that the Vessel is well and sufficiently found,
2. That she is deficient in either quantity or quality.

Vessels **RESTORED** to, or **CONTINUED** on the Character A, will have the number of Years for which they are restored or continued inserted separately under the number originally assigned, in the tenth column; where the term in the latter case has expired, the Letter "C" only will be placed before the figure denoting the number of Years for which Continuation had been allowed.

Vessels marked "S.S." with a date, *in red*, denote that they have been surveyed at that time in accordance with the Rules, Sec. 54—60.

British North-American built vessels, opened as required by the Rules, Sec. 63, will be marked in the Register "S.S" with the number of years that may elapse before they are again opened, and the year of survey; thus—"S.S.47—3Yrs—"

When the Rules, Sec. 63, have not been complied with, they will be marked in the Register; thus—"Not Op." and the Character omitted.

When the term "almost Rebuilt" is used, it implies large repairs, but that the Rules for Restoration have not been fully complied with.

The figures in the Tenth Column, to vessels in the *Æ* Class, imply that they were originally classed A, for that number of Years. The cipher 0 in this Column indicates that (from inferior construction) there were no "number of Years first assigned."

Sailing Vessels thus distinguished, "A P. 30 H." denote that they are Fitted, with Auxiliary Steam Power, equal to 30 Horses.

*In the Eleventh Column.*

The Figures under the Character denote either the Year, or the Month of the current Year, in which the Vessel was last surveyed.

When the character "Æ" without any date, appears in the last column, it denotes that the period assigned to the Vessel for remaining in Class "A," having expired, she has lapsed into the second description of the First Class, as per Rule, Section 59, and that this character has not been assigned from a Survey.
